

SAHIL MODI

Mumbai | sahilmodic819@gmail.com | 8108716051 | [GitHub](#) | [LinkedIn](#) | [website](#)

SUMMARY

Detail-oriented software developer with hands-on experience in full-stack development, testing, and SDLC. Passionate about building scalable applications and exploring data-driven solutions across data science, data analytics, and big data. Eager to learn and adapt to emerging technologies while contributing to impactful, real-world projects.

WORK EXPERIENCE

Web Developer Intern

Oct 2024 - Dec 2024

Plasmid, Remote

- **Development:** Built responsive web interfaces using HTML, CSS, and JavaScript, leveraging React for dynamic component architecture improving user experience and cross-device compatibility.
- **Tooling:** Optimized development workflows and build times using Vite for fast, efficient frontend environments.
- **Collaboration:** Managed source code and versioning via GitHub while collaborating on UI improvements and feature updates.

Full Stack Developer Intern

Oct 2025 - Jan 2026

DavaNinja, Mumbai

- **Mobile Development:** Engineered high-performance cross-platform applications using React Native, improving UI responsiveness and reducing load time by ~20%, enhancing overall user experience.
- **Backend & Cloud:** Scaled application functionality by integrating Firebase for real-time data and AWS Cloud services for secure, serverless backend architecture.
- **Quality Assurance:** Executed GUI and functional testing ensuring seamless user experience and optimal performance, reducing app crashes and improving stability across multiple devices.
- **Version Control:** Streamlined team collaboration and code integrity through advanced GitHub workflow management and systematic version control practices.

PROJECTS

EHR 360 – Electronic Health Record System

Sep 2025

- Developed a full-stack web application using React, Node.js, Tailwind CSS, and MongoDB for secure patient data management.
- Designed RESTful APIs and modular backend architecture supporting scalable and microservices-ready design.

MediReach – Smart Healthcare Access Platform

Feb 2026

- Developed a healthcare platform connecting patients with nearby medical resources, improving accessibility and response efficiency using Python and location-based services.
- Implemented intelligent matching and prioritization logic for efficient and timely healthcare access.

LEADERSHIP, RESPONSIBILITY & COMMUNITY ENGAGEMENT

CORE Committee Member

Sep 2023 - Mar 2026

Dot Com Club, Jai Hind College, Mumbai

- Technical Team Sub-Head → Head → Treasurer.
- Led planning and execution of technical and esports events, managing teams and operations.
- Handled budgeting, sponsorship coordination, and financial tracking as Treasurer.
- Demonstrated leadership growth through progressive roles and increased responsibilities.

Organizing Committee Member – National Research Conference

Oct 2024 - Feb 2026

Jai Hind College, Mumbai | 1.5 Years

- Coordinated logistics, registrations, and event execution for academic research conferences.
- Collaborated with faculty and participants to ensure smooth conduct of sessions.

Volunteer – NGO & Community Work

Oct 2024 - Feb 2026

- Actively participated in monthly community service initiatives.
- Contributed to social outreach and awareness activities, demonstrating commitment to social responsibility.

EDUCATION

Bachelor of Vocation in Software Development

Jul 2023 - Apr 2026

Jai Hind College, Mumbai

- CGPA: 9.5 / 10
- Relevant Coursework: Data Structures & Algorithms, DBMS, Software Engineering, Testing, Blockchain, Networking, Linux.

SKILLS

Languages	Java, Python, C, C#, PHP, JavaScript.
Tools/Frameworks	React, Node.js, Git, GitHub, Vite, Figma, Power BI, Jenkins.
Cloud & Technologies	AWS (EC2, S3, Amplify, VPCs), Docker, CI/CD Pipelines, Cloud Security.
Databases & Big Data	MySQL, MongoDB, Firebase, HDFS.
Core Concepts	Data Structures & Algorithms, DBMS, SDLC, Agile, Performance Optimization.
Other Skills	Manual Testing, Test Automation, Unit Testing, Cryptography, Data Analytics, Linux Basics.

CERTIFICATIONS

NASSCOM - Junior Software Developer

Mar 2025

- Certified training in end-to-end software engineering, including requirement analysis, modular programming, and unit testing protocols.
